

April 14, 2010

**Referenced Standards:** API612 Sixth Edition, API670 Fourth Edition

**Certified Products:** Woodward 505/505E and MicroNet Controllers

The American Petroleum Institute (API) is the only national trade association that represents all aspects of America's oil and natural gas industry. Our nearly 400 corporate members, from the largest major oil company to the smallest of independents, come from all segments of the industry. They are producers, refiners, suppliers, pipeline operators and marine transporters, as well as service and supply companies that support all segments of the industry.

The Woodward 505/505E controller product line and the MicroNet control product line when applied and installed as specified within the respective product manuals comply with standard API612 – Sixth Edition and standard API670 – Fourth Edition.

The 505/505E and MicroNet product lines include prime mover speed control and protection functionality that has been tested to and verified to meet all requirements of standard API612 – Sixth Edition, standard API670 – Fourth Edition, and related standard ANNEXs .

Regards,

**Rich Kamphaus**
