

April 16, 2010

Referenced Standards: API612 Sixth Edition, API670 Fourth Edition

Certified Products: Woodward ProTechTPS and ProTech-GII

The American Petroleum Institute (API) is the only national trade association that represents all aspects of America's oil and natural gas industry. Our nearly 400 corporate members, from the largest major oil company to the smallest of independents, come from all segments of the industry. They are producers, refiners, suppliers, pipeline operators and marine transporters, as well as service and supply companies that support all segments of the industry.

The Woodward ProTechTPS total protection system product line and the ProTech-GII overspeed protection device product line when applied and installed as specified within the respective product manuals comply with standard API612 – Sixth Edition and standard API670 – Fourth Edition.

The ProTechTPS and ProTech-GII product lines include prime mover overspeed protection functionality that has been tested to and verified to meet all requirements of standard API612 – Sixth Edition, standard API670 – Fourth Edition, and related standard ANNEXs .

Regards,

Rich Kamphaus
API612 & API670 Committee Member
Woodward Governor Company
