

31. Mai 2017

Woodward Power Solutions GmbH, Krefelder Weg 47, 47906 Kempen

Product Discontinuation CANtrol-modules

Dear customer, sales partner and distributor,

unfortunately we have to inform you that the products attached to this letter will be discontinued from the 1st of July 2017. After a long time the component availability for the components mentioned on page #2 cannot be guaranteed from our suppliers and furthermore the RoHS2 directive cannot be fulfilled. Starting that date only repair orders and repair exchanges can be processed.

Herewith we inform you that a last time buy for the products starts with end date 28th of June 2017. Every order however is subjected to component availability. Products affected ROHS2, will be shipped after 30th of June 2017 without CE.

We regret the step Berghof decided to go and hope for your understanding. Woodward-Retrofit solutions for your Berghof installation can be checked, offered and realized on an individual basis to ensure a high availability of your Plant control. –We look forward to be your competent business partner in counseling and support of your cabinets.

Please do not hesitate to contact us for more information.

With best regards

Woodward Power Solutions GmbH
