Woodward GmbH, Krefelder Weg 47, 47906 Kempen

SUBJECT: Product Support – XP2-R replaces BP1R2305

This statement is to inform Woodward customers, channel partners and sales & marketing on the product rationalization and product support plan of **XP2-R**. The **BP1R2305** protecting against reverse power will be replaced by the **XP2-R**. The XP2-R provides better measuring precision. The **XP2-R** is also equipped with forward power protection element.

The **BP1R2305** will be available till **March 2019**

- Last time buy:
- After March 2019 Woodward will commit to the following support plan:
- Repairs **01st April 2019 – 30th April 2021**
- After **30th April 2021** Woodward will commit to limited repairs based on components availability

Further parts obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory, or look for alternative parts when components are obsolete. However, there are times when components can simply not be obtained and where sufficient last-time buys cannot be made. In these cases, Woodward cannot always guarantee that we can maintain the rationalization support plan.

Part Number Map:

New Description	Old/Current Description
XP2-R5	BP1R2305

We thank you for your trust in Woodward. If you have any questions about this product support plan, please contact your Account Manager or undersigned.

With Regards,

Kolja Welchering
Product Line Manager
