

Product Rationalization of PD – Basic Line Products SY

4. November 2014

This announcement is to inform Woodward Customers, Channel Partners and Sales & Marketing of the product rationalization and product support plan for the PD – Power Distribution product lines manufactured in Woodward Kempen/Germany.

The rationalization affects the following product line variants

- Discontinued variants Basic Line
SY211050
SY223050
SY240050
SY2SP11050
SY2SP23050

Woodward offers the following “Last Time Buy” scenario for the discontinued items:

- Orders for the Last Time Buy can be placed until 1st January 2015. Woodward will accept orders until this date.
- Woodward will ship items ordered before the LTB date until 1st of January 2015 based on the LTB volumes. After this date Woodward will stop the production.

Woodward will commit to the following product line support plan for the discontinued items:

03th November 2014 – 01th January 2015:

- Unlimited New Sales
- Unlimited Repairs

1st January 2015 - 31th October 2015:

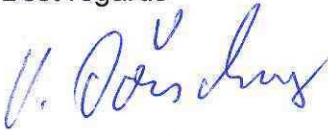

- Limited Repairs based on parts availability

Parts obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory, or look for alternative parts when components are obsolete. However, there are times when components can simply not be obtained and where sufficient last-time buys cannot be made. In these cases, Woodward cannot always guarantee that we can maintain the rationalization support plan.

Discontinued Items:

Item No	Extended Item No	Item Description	Comments
SY211050	SY2-110-50	Synchronizer	Similar Item SPM-D10B
SY223050	SY2-230-50	Synchronizer	Similar Item SPM-D10B
