Woodward GmbH, Krefelder Weg 47, 47906 Kempen

SUBJECT: Product Support – MRDT4 replaces XD1-T

This statement is to inform Woodward customers, channel partners and sales & marketing on the product rationalization and product support plan of XD1-T. The XD1-T protecting transformers will be replaced by the new HighPROTEC MRDT4 with all advantages and benefits that the state of the art HighPROTEC family provides

Important Features:

- Superior technology, the MRDT4 meets the global standards and optional communication protocols including IT security
- Hardware configuration flexibility through wide range power supply. Full protection package is always on board
- Best in Class usability through user friendly page editor, onboard simulation options and multiple languages
- Conformal Coating option for harsh environment

HighPROTEC MRDT4 is fully available. Supporting documentation can be downloaded from Woodward website (<http://wwdmanuals.com/mrdt4-2>) accordingly and our support team is happy to assist with technical questions to facilitate the migration.

The XD1-T will be available till **January 2019**

- Last time buy:
- After January 2019 Woodward will commit to the following support plan:
- Repairs **01st April 2019 – 30th April 2021**
- After **30th April 2021** Woodward will commit to limited repairs based on components availability

Further parts obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory, or look for alternative parts when components are obsolete. However, there are times when components can simply not be obtained and where sufficient last-time buys cannot be made. In these cases, Woodward cannot always guarantee that we can maintain the rationalization support plan.

Part Number Map:

New Description	Old/Current Description
<p>MRDT4-2A0A0AA (8DI / 7BO)</p> <p>Other variants with more digital inputs and binary output relays available. Other variants with state of art communication protocols available</p>	<p>XD1T11 XD1T11SAT XD1T55SAT XD1T11SPSAT XD1T55SPSAT</p>

We thank you for your trust in Woodward. If you have any questions about this product support plan, please contact your Account Manager or undersigned.

With Regards,

Kolja Welchering
Product Line Manager
