

CONTROL SYSTEMS

Industrial Turbines, Engines,
Pumps and Compressors

amot

Brüel & Kjær Vibro

I&C Solutions Provider

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
MODEL B (DN40 TO DN200)

- > mixing or diverting applications
- > co-generation

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
3-WAY MODEL E (DN32 TO DN40)

- > robust design
- > wide selection of materials and sizes

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
MODEL H (DN100 TO DN150)

- > process control
- > flanged Connections
- > completely self-contained

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
3-WAY MODEL J

- > heat recovery
- > co-generation
- > temperature mixing or diverting
- > cooling system

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
3-WAY MODEL C (DN15 TO DN40)

- > wide selection of sizes and settings
- > may be mounted in any position

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
3-WAY MODEL R (DN20 TO DN80)

- > suitable for refrigeration applications with ammonia
- > welded connections

THERMOSTATIC VALVE

THERMOSTATIC CONTROL VALVE -
3-WAY MODEL G

- > ease of integration
- > configurable ports
- > manual adjustment (optional)

THERMOSTATIC VALVE

ELECTRIC THERMOSTATIC CONTROL
VALVE - 3-WAY MODEL GEF
(DN50 TO DN450)

- > variety of fluids

START VALVE

AIR START / FUEL SHUT-OFF VALVE -
MODEL 4418F

- > for diesel engines, gas turbines

TEMPERATURE SENSOR

TEMPERATURE SENSOR 4102

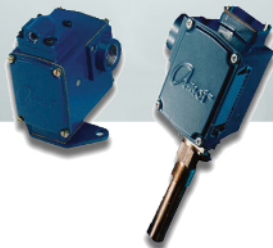

- > used for engines
- > instant response to excessive bearing temperatures
- > compact design, easy, low cost installation

TEMPERATURE SENSOR

PRESSURE OR TEMPERATURE SWITCHES 4140

- > combined pressure and temperature switch
- > independent set points
- > robust housing

DETECTOR

METAL PARTICLE DETECTOR MPD2

- > detector of particles in lube oil
- > compact, lightweight, and very robust
- > corrosion-resistant

VIBRATION SENSOR

ACCELERATION SENSOR

- > robust and compact design
- > wide frequency and amplitude range
- > low magnetic field sensitivity

VIBRATION SENSOR

VELOCITY SENSOR

- > horizontal or vertical types
- > explosive, hazardous or underwater areas
- > stainlesssteel casing

VIBRATION SENSOR

DISPLACEMENT SENSOR

- > rotating and reciprocating machines
- > machine problem detection
- > robustness and high reliability
- > use in hazardous areas

VIBRATION CONTROLLER

VIBRATION CONTROLLER VC-8000

- > for critical rotating and reciprocating machinery
- > machine condition monitoring platform with advanced diagnostics

VIBRATION MONITORING

SOFTWARE SETPOINT

- > complete picture of your machine's health
- > for simplified predictive maintenance

PORTABLE DEVICE

VIBRATION MONITORING DEVICE VIBROSTORE 100-100E

- > field vibration monitoring and analysis
